Annexure IV- Best Practices

1. Title of practice:

Assessment of Programme OutcomeGoal:

2.Goal:

The aim of the practice “ Assessment of program outcome” followed by the institute is to create a platform to increase Students Performance and Placement, motivation for higher studies to improve global economy and faculty productivity.

3.The Context:

Analysis of the semester result is done by Academic Council to evaluate the performance of the students in every semester and corrective actions are taken to improve the results if required. The placement records of every year are regularly analyzed and industry feedbacks are taken for their employees from this Institute. More industry oriented training is imparted to students for enhancing their skill. Innovative project works are given to students to enhance their ability to take up higher education and research in the recent technological fields.

Student’s feedback is taken for each respective faculty in every semester and the same is analyzed by the Academic Committee to fill up any gap area associated with their performance. 360 Degree evaluation (Students feedback, Head of the Department,,s report, Principal,,s report, Administrative feedback) for faculty is done. Weaknesses of the faculty members are foundand accordingly, training and orientation programme are arranged for them as corrective action.

All faculty members are encouraged to take up research work and to obtain higher degree and research project funds from outside agencies to establish world class research laboratories and increase the status of the Institute.

4.The Practice

Mapping the distribution of responsibilities in teaching and learning to effect significant Strategic change and enforce institution-wide policies. Capability of the concernedfaculty is identified for successful implementation of reforms within and acrossdepartments to strengthen their commitment to improving quality teaching.Heads of departments is given explicitresponsibilities for fostering quality teaching and learning and to ensure that the leadership responsibilities arematched with the resources and the tools needed to deliver results.

An environment is created where everyone (teacher, student, support staff, etc.) operates within a clearly identifiable leadership structure. It is ensured that the teaching and learning framework can be easily adapted by each faculty member to reflect their values, ethos and modus operandiand then applied in their own teaching practice.

Progress in implementing the teaching and learning framework across each levelof the institute is monitored and reports are analyzed by the heads of departments and Principal. Appropriate platforms exist for sharing experience andinitiatives across the institute.

5. Evidence of Success

Evidence of success in performance against targets and benchmarks andreview of results exist. The student’s performance in university examinationhas been gradually improving. Many faculty members have completed andawarded Ph.D. degree and some more are inthe final stage of submission of their Ph.D Thesis. This practice helps inincreasing the number of research publications nationally and internationally by the faculty members. Students are also highly motivated for doing innovative projects and won prizes in technical competitions and published their research papers inconferences and workshops. Students are also inclined to pursue

higher education to quench their thirst to acquire knowledge of modern technology. This helps to enrich the society and improve the quality of life.

6. Problems Encountered and Resources Required:

There are some problems in implementing this practice due to lack of concentration of the students in their studies. Sometimes more efforts have to be implemented to make the weak students to study well. The staff members are taking special classes for the weak students and conducting regular tests for the benefit of the students. Even though sometimes there will be decrease in percentage. Regular tests and separate assignment books are provided for problematic subjects to improve the knowledge of the student. Continuous monitoring and counseling are done to the students to bring out the best from them. The management provides full support to implement necessary things which helps to improve the knowledge of the student. Continuous monitoring and counselling are done to the students to bring out the best from them. The management provides full support to implement necessary things which helps to improve the student's carrier. The institute also provides funds, which greatly helps in upgrading research laboratories for conducting seminars, symposiums and for promoting this practice.

2) 1. Title of the Practice:

Collaborative Research Activities

2. Objectives of the Practice

- The Research & Development is to facilitate academic research for the development of the academicians and the institution.
- It aims to bring about a dynamic equilibrium with its social and economic environment for excellence in education, research and service to the Nation.
- To explore unreachd areas by bringing openness in multi-disciplinary research.
- To provide a supportive research environment in which Scholars, at every stage of their career, can flourish and develop.

3. The Context

Research at SAEC is nurtured through various academic programs run by the different departments. The sponsored research has contributed in terms of development and technology. SAEC is committed to knowledge transfer and engage in technology transfer and economic development activities that benefit the society .

4. The Practice

- Devise strategies to assist the research scholars in meeting their research objectives.
- Periodical review of research strategies and plans of individual department through road map
- Analysing the roadmap areas for initializing inter disciplinary research

- Identification of new initiatives and opportunities in the innovation areas
- Effective publication of the research works in reputed journals and conferences.
- Identification of social issues and bringing about a solution to the issues.

5. Evidence Of Success

S.A. Engineering College has been recognized as a Research Centre Approved by Anna University, Chennai for the following departments.

1. Department of Mechanical Engineering
2. Department of Electronics and Communication Engineering
3. Department of Electrical and Electronics Engineering
