## ACTIVITY BASED LEARNING

### Activity-based Learning:

- The method of learning by doing activities is known as Activity-based Learning.
- Activity-based Learning allows students to personally engage in their own learning environment through meaningful experiences like problem solving and autonomous inquiry.
- This helps to empower students with problem-solving, logical thinking and imagination skills by enabling them to discover, practice and think better thro' Activity-based strategies.
- Activity-based Learning is a student centered approach in which the responsibility for learning is placed upon the student, often working in collaboration with classmates.
- ✓ The presentation of facts, so often introduced thro' straight lecture, is deemphasized in favour of
  - **Technical seminar**
  - **Oral presentation**
  - **Problem solving Skill Development**
  - **Group Discussion**
  - **Debate**

followed by Class discussion.
