"The function of education is to teach one to think intensively and to think critically. Intelligence plus character — that is the goal of true education."

NEWSLETTER

COMPUTER SCIENCE AND ENGINEERING

MISSION

- **Education:** Integrate theory and practice to foster creative, critical thinkers and lifelong learners.
- **Research:** Drive innovative, interdisciplinary research that solves modern challenges.
- **Ethics:** Develop sustainable and ethical technological solutions for a positive societal impact.
- **Engagement:** Partner with industry and community to enhance student success and advance society.

VISION

To pioneer in the emerging areas of Computer Science and Engineering education and research, fostering innovation, ethical values, sustainable technologies that advance the digital world and improve societal well-being.

GUEST LECTURE

EMERGING CAREER OPPORTUNITIES

- Explored various roles like Data Analyst, Data Scientist, Machine Learning Engineer, and AI Specialist.
- Highlighted high-demand sectors such as healthcare, finance, e-commerce, and cybersecurity.
- Provided insights into industry expectations, skill requirements, and career roadmaps.

SKILLS DEVELOPMENT AND FUTURE SCOPE

- Emphasized the need for strong analytical thinking, statistical knowledge, and coding skills.
- Encouraged students to pursue online certifications and internships to enhance their profiles.

UNLOCK NEW OPPORTUNITIES IN DATA SCIENCE

- Explained the importance of data in the digital era and how it drives business decisions.
- Introduced key areas in Data Science: data collection, cleaning, analysis, and visualization.
- Discussed popular tools and technologies such as Python, R, SQL, and Tableau.

"Education is the most powerful weapon which you can use to change the world."

TECHNIQUES AND TOOLS FOR DATA PROTECTION

- Covered encryption methods (like AES, TDE) used to secure sensitive data.
- Demonstrated the use of access control mechanisms such as role-based and privilege-based access.
- Introduced firewalls, database activity monitoring tools, best practices for backups, patch management, and auditing database activity and intrusion detection systems.

- Explained the concept of database security and why it's essential in today's digital era.
- Emphasized the importance of confidentiality, integrity, and availability (CIA triad) in secure databases.
- Introduced common vulnerabilities and threats such as SQL injection, privilege escalation, and data breaches.

- Shared real-life case studies of major data breaches and how they could have been prevented.

AUTOMATED MOBILE APP TESTING

- Explained the need for automated testing to speed up mobile app development and ensure quality.
- Covered tools commonly used like Appium, Espresso, and XCTest for Android and iOS platforms.

UNDERSTANDING THE CI/CD PIPELINE

- Defined Continuous Integration (CI) and Continuous Deployment/Delivery (CD) in mobile development.
- Explained the workflow from code commit to testing, building, and automatic deployment..
- Discussed popular tools like Jenkins, GitLab CI, CircleCI, and Bitrise.

REAL-TIME DEMONSTRATIONS & INDUSTRY INSIGHTS

- Conducted a live demo showing integration of mobile app code with a CI/CD pipeline.
- Discussed common challenges in mobile CI/CD like device fragmentation and test environment setup.

"Success is a lousy teacher. It seduces smart people into thinking they can't lose."

DIGITAL MARKETING

- The CSE department organized a Guest Lecture for all IV-year students of the CSE department on 'Digital Marketing'.
- These programs help students explore both technical and non-technical fields, ensuring comprehensive career guidance and skill development.
- The Lecture was organized on 11.03.2025.

- The Industrial Visit is for CSE Students.

- To explore unmanned ground vehicles (UGVs) and advanced combat technologies.
- Gain practical insights into the design, development, and manufacturing of combat vehicles.
- Understand the role of research and development in national defense.
- Explore potential career paths in defence technology and research.

- The exposure to complex challenges and their solutions can motivate students towards careers in defence technology or research.
- See how concepts learned in classrooms (e.g., mechanical engineering, electronics, computer science) are applied in designing and building complex systems like tanks and armored vehicles.

"The beautiful thing about learning is that nobody can take it away from you."

- Strategies to plan their career path and set long-term professional goals.
- The technical and soft skills required to stay ahead in the competitive tech world.
- The Program is held on 07.03.2025.

"If something is important enough, even if the odds are against you, you should still do it."

WORKSHOP

INTRODUCTION TO UI/UX PLATFORM

- UI/UX is a low-code application development platform that accelerates software delivery.
- The workshop introduced students to building enterprise-grade apps without extensive coding.
- Real-time demos were provided to show how drag-and-drop components speed up development.
- Conducted practical sessions to build simple apps using Mendix with a focus on UI/UX.
- Students collaborated in teams to design user-friendly interfaces and simulate workflows using Mendix.
- Students gained practical exposure through live demonstrations

"The future belongs to those who believe in the beauty of their dreams."

- discussed the importance of web development in tech careers and freelancing.
- Introduced platforms like GitHub, CodePen, and VS Code for practicing and showcasing work.
- Highlighted the demand for full-stack developers and related job roles.

COLLABORATION AND INTERACTIVE LEARNING

- Students were grouped in teams to collaborate on real-time mini web projects.
- Peer-to-peer learning was encouraged through code sharing and idea exchange sessions.
- Interactive Q&A rounds helped clarify doubts and promote active participation.

HANDS-ON WORKSHOP SESSIONS

- Participants built a basic website layout using HTML and CSS.
- Learned how to add interactivity using JavaScript and DOM manipulation.
